Hi Sean,

All sediment trap activities have concluded for this round of sampling. We will make sure that the divers and tenders are wearing the required PPE in the exclusion zone at all times or future diving activities.

Thank you,
Jonni

Hi Jonni,

Let's make sure divers and tenders are gloved up in the hot zone, please.

Thank you.

S.

Subject Sediment Trap Overtight

Good afternoon,

The crew has retrieved and deployed the last sediment trap at ST07B (RM 16.6W) and has arrived back at SIL. The sediment tubes are on ice and will be transferred to the processing facility. I will head to the facility now with the Pre-RD group to oversee the sample processing activities for today's trap retrieval.

Included are photos of the sediment trap retrieval ST07B.

Thank you,
Jonni
